### EDITORIAL,

Well, howdy. Hope you've all recovered  
from the last few debauched days.

Xenogenesis day, once again, proved very  
eventful. The varied activities were, to say  
the least, amusing, and a good day was had  
by all. Congrats to winners of events.

Dee Minor rocked the union apart on the  
Thursday night and indeed was a good rage.

Commiserations to those who suffered from  
hangovers the following day

The Ag Intercol and Red Rugby Reunion were  
held and also very successful, with many old  
students returning.

This week we goodbye, for two weeks,  
Emmanuelle "Manny" Psaltis, Mark 'Disco' Sims,  
Glen 'Groin' Whittaker and Bernie 'Goliath'  
Rorke to Hawaii for the Rugby Union World  
Championships. We wish them the best of

luck in the footy and the drinking! They  
thank you for your support in the last few  
weeks.

That's about all, *Oudette*.

# EXECUTIVE OFFICERS REPORT

## KEEP SOUTH AT SOUTH (KSAS)

Observers of recent sporting developments will be aware that the KSAS movement has been successful at South Melbourne. What a pity it is that such a movement did not have the same success in the mid 1970's. It must be becoming increasingly apparent to those associated with this College that the disadvantages associated with the movement North are going to be with us for many, many years.

It is unlikely that the College will ever be able to vacate the South Campus as no commonwealth money is going to be provided to establish residential accommodation north of the river. Those of us with a nostalgia for the old South Campus are very saddened by the way in which the campus has been allowed to deteriorate to a state where it is almost an eyesore. Sporting facilities at South Campus were some of the most highly regarded and best quality facilities in Southern N.S.W. Those facilities have been allowed to degenerate and nothing has been put in their place except for a half completed oval on Boorooma Campus which looks as though it will hold water anyway. Players at one end of the field won't be able to see what is going on at the other due to the "crowning" of the centre of the oval.

Another result of the move North has been the almost complete disregard of student

campus life, and the library reports that community use of the resource has suffered remarkably since moving north.

The college had ample land available on South Campus site for the future development of the College and I have always contended that the College should have stayed south of the river. Undoubtedly there are many who will not agree, but then they are not confronted on an everyday basis with all of the resultant problems of the move north. All is not lost however. Perhaps a KSAS sports field movement will be successful.

## CLIFF COUNTY

As promised in the last edition of Barph, I now reveal the new terms and conditions of employment for academic staff.

All academic staff will now work a four day week with work commencing at midnight on Sunday in preparation for catching the Spirit of Progress to Albury. Personnel development seminars will be conducted en-route to Albury whilst all academics are refreshed from a weekends break. All lectures at Albury will be held on Monday mornings with some lecturers catching the Daylight Express direct to Goulburn whilst others will travel on the night train. This will allow all lectures and tutorials at Goulburn to be held on Monday night and Tuesday morning. Lecturers will return to Wagga on the Spirit of Progress on Tuesday morning or alternatively on the Daylight Express on Tuesday afternoons. This will mean that all lectures at Wagga will take place on Wednesdays and Thursdays. Exceptions - Those lecturers in Agriculture and their supporters who are disturbed at the erosion of the working week will be able to break the return journey at Junee and spend an additional two days at Griffith. In this way they will be able to work a six day week.

The College By-law is currently being re-written to prevent any right of appeal against any decision of the Principal (or his nominee).

It is rumoured that East Block Country Club are mustering arms and ammunition to mount a desperate rear guard action against these proposals.

Next week - the financial arrangements for Cliff County. N Diffey

HI, BEAUTIFUL, ...HOW ABOUT A LITTLE HISS!

DEAR EDITOR...

Dear Editors,

May I use your pages to reply to the letter of Billy Teapott that appeared in the last edition of BARPH. I fully agree with Mr. Teapott that the .....Hotel should have no stars granted due to Racist behaviour of the publican. The ratings given in Race were given on a tour of Wagga's public establishments and one cannot foresee all activities of the hotel in such an encounter.

However, upon further investigation of the events of the 23rd September I discovered that the people whom the publican refused to serve had in fact been barred from the Hotel for a period of one month. They were barred for fighting and disturbing other patrons at the hotel and thus, the publican refused to grant them anymore service as their month wasn't up yet. (Our own Union has handed out similar penalties to people behaving in an unsocial manner) Further to this the other people in the dispute were barred and have not been served since this occurred. This information was told by people who witnessed the event.

Therefore Mr. Teapot I suggest that you uncover the facts of a case before you recommend any action be taken for as they say in law "Ignorance is no excuse".

Carl Ton

Author "Behind Bars"

P.S. Be prepared for the next edition of "Behind Bars" which will review every pub in a 30 mile radius of Wagga.

Dear Editors,

WHO'S RIGHTS?

Lang Hancock, that great Laissez Faire Australian entrepreneur stated earlier last week (in the Age) that W.A. and QLD should be made into tax-free havens to stimulate the Australian economy (by sheer co-incidence he also has vast mining interests in these States).

Apparently the growing awareness and push for Aboriginal Land Rights seems to be seen by Mr. Hancock as a threat on his multi-million dollars mining royalty interests.

His solution to the problem (revealed on QLD T.V. late last week) is to sterilise half-caste Aborigines (half-castes are seen as the problem) and let them "breed themselves out in the future. That would solve the problem."

Only a few decades ago settlers shot or poisoned the aborigines for their land - it seems that in some quarters this grab for greeds sake is still considered fair.

So much for others human rights eh Lang?

J. ADAMS.

Dear Ed,

We've got the shits!!!! By having to return every single item we had collected (except the virgin) for the "Scavenger Hunt" that did not eventuate.

We thought it was a bit much to cancel the Scavenger Hunt two days before the registrations were due, because of lack of interest; when we knew of at least six teams, who had shown tremendous interest.

Our team, received generous co-operation from the individuals and Companies of Wagga Wagga who lent the required items quite willingly and these same persons were quite disappointed to learn the Scavenger Hunt had been called off, when we were returning items.

Also "up your arses" for all those who did not show any interest at all. We hope you find veins in your hot dog and a dingo mistakes you for a Chamberlain.

Yours interested,  
Prepared participants.

Dear participants,

The hunt was cancelled, due, to what E<sup>2</sup> thought was lack of interest.

I am an E<sup>2</sup> member, and was, unfortunately, not at the meeting where this was decided. Apparently, they didn't have any feedback about it, so they thought there wasn't much interest being shown. After informing them otherwise, it was too late to turn around and put it back on. We apologise for this.

EDITOR.

## THE LANDLORDS LETTER

A young couple planning on getting married were out inspecting a house. After deciding that it would do they climbed into the car and left. After a while the young man noticed that the young lady had gone very quiet.

"What's wrong Pearl?" he asked

"Did you see any W.C. Stan?" she asked.

Stan could not remember seeing any, so he wrote to the landlord.

Dear Sir,

When we inspected the house we did not see the position of the W.C. could you please tell us where it is.

Thankyou,  
Stan.

The landlord had to think about this, finally after much thought he decided that they meant the ~~WESTERN~~ CHURCH. So he wrote back

Dear Sir,

I am happy to inform you that the W.C. is only 9 miles from the house. It seats 250 people. Because of the distance you will be pleased to know that many people make a day of it and pack a picnic lunch to take with them. While others take their cars as they can't wait.

The people close to the W.C. have not had any sleep lately, as everyone has been preparing for a bazaar to be held at the W.C. to raise money for a bell which will be erected outside and rung every time a member enters.

My daughter was married in our W.C. and I'm happy to say that she met her husband there. The W.C. was so crowded that I had to stand, the seat I usually occupy being taken up by ten others. The W.C. was crowded on that day and many had to stand. It was wonderful to watch the expressions on their faces.

Very often people have to stand so it is often a good idea to get there early. They now want plush seats in the W.C., many feel this is long overdue as they are tired of the wooden ones.

My wife and I don't go very often now, in fact as my wife has been ill for the last couple of years we haven't been at all. It pains us greatly not to be able to go more often. I hope this is all the information you need.

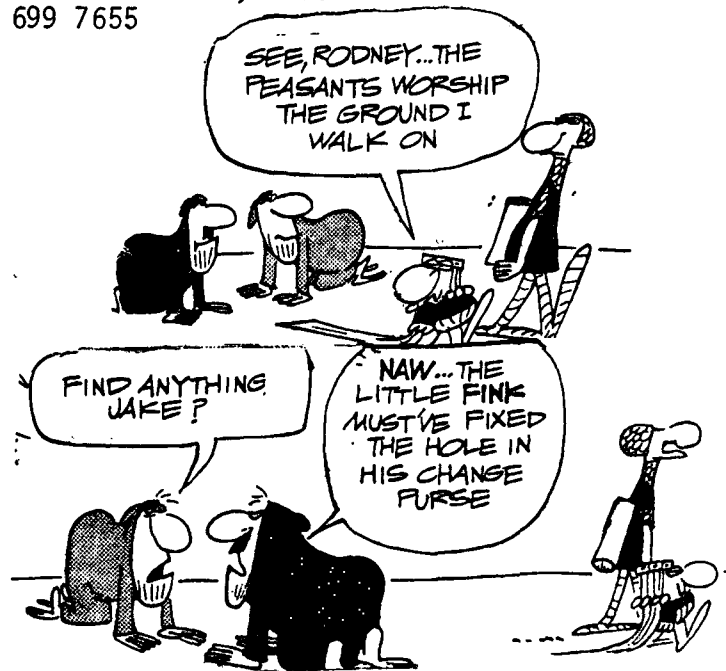

Yours, The Landlord

# why not ???

Why stay at home when you could spend the winter in the USA working as a counselor in an American children's camp. The International Camp Counselor Program offers you an inexpensive way to see the real USA from the inside. ICCP is for students and youth leaders, aged 20-30 who speak English well enough to take full responsibility for a group of campers, have experience with children, have sports or camping skills, and like simple living in the out of doors. ICCP is for persons who would rather be participants than tourists, who want to join with 500 young people from 40 countries in teaching American children that international understanding can best be learned by living together.

CCP offers 9 weeks' placement as a camp counselor, no cost charter flight to USA from Paris or Tokyo, or \$300 towards Australia/USA fare, orientation, health insurance and optional family visit by bus tours after camp.

## SOCCER - MILPERRA INTERCOL

Milperra was again the host of this years N.S.W.S.I. After such a successful intercol last year, it was again decided to hold this prestigious event at the same venue.

Last year we finished last, this year we just missed out on the semis taking 5th place. This improvement was built around scoring more often, less alcohol consumption and only having the more dedicated players there. Thanks goes to all the Redbacks who paid their \$10 deposit and then failed to pay the \$12 owing. Thanks for the donation!

The trip to Milperra had its incidents. Gobbler was kidnapped at the Duck and taken unwillingly ??? to Milperra. His only possessions were a T-Shirt, a pair of board shorts and tbongs. After frequent stops for refreshment the bus finally made it to Liverpool where Simon (bus Driver) was booked for speeding, after being requested

to chase several females in a car in front of him.

After arriving at the caravan park we were hassled by the caretaker about our deposits on the caravans. Once cleared we headed for the Revesby Pub where we met up with two former Redbacks, BUC and ASHY and found that we had the hardest draw. After a few ales we headed back to the caravan park for sleep or a spit, Meechy - big effort.

### SATURDAY

An early rise and off to the ground to prepare for battle.

VS Mitchell CAE 2-1 Win to Rivcoll

VS A.C.P.E. Rivcoll win 1-0

VS Newcastle Rivcoll. lose 2-0

Bankstown Sports Club

The Redbacks made the most of the night and raged with the Armidale, Kuringai and Milperra females. One not to rape was Dead-fish who had to return home after being booked for an "illegal U-Turn and not possessing a license" earlier in the day.

The night ended on a high after several Redbacks were taken by taxi driver to a local police station. The taxi driver accused the Redbacks of abusive behaviour. However when interviewed by the police, the taxi driver was charged with D.U.I. The Redbacks had to get another taxi home.

### Presentation Night

This prestigious event will take place on Saturday night 17th October. There are lots of festivities planned so make this night available and join all your colleagues in what should be a great night, especially with many old-boys coming back especially for the weekend (if they get their letter in time!)

Finally special mention goes to the volunteers (especially Tolly) who helped on the gate at South Campus last week during the Show. Your effort has given the club money to buy trophies with - thank you very much. Here's to a great presentation night and reunion weekend.

Chuck.

## TABLE TENNIS

In this weeks round of table tennis three college teams recorded victories. They were A graders, RCAE Red, B<sub>1</sub> Graders RCAE gold and B<sub>2</sub> graders, RCAE blue.

A special mention must be made to RCAE red who played against and defeated one of Wagga's strongest teams. Red's players, S Davidson, A. Lam and F. Farnsworth all played consistent table tennis and each player recorded two wins for their team.

RCAE gold's newest recruit, Tony Chapman showed his 'true form' last week as he netted in two brilliant wins. Sandy Morton also played well and won two games for the team.

Again, Olive shocked, not only her team mates, but everyone as she won, not only one, but two games for her team. Keep it up, Olive! Olive was supported by K. Hughes and, proud father, Don Munro who won one and three games, respectfully. Other Results were:

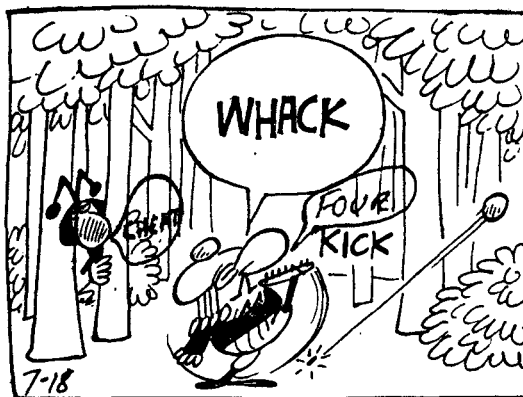

A Reserve RCAE Grey were "whitewashed" by bee stings, 11:0

RCAE Green lost by forfeiting to Comedians (Green is now out of the competition as they have had too many forfeits)

B<sub>1</sub> grade: Brown lost to Superonics, 3:8 (Liz Farnsworth played well and recorded two wins)

Finally:

Just a little message to all those potential table tennis stars out there at college. OUR TEAMS ARE SHORT OF PLAYERS AND IF ANYONE IS INTERESTED IN PLAYING EACH, OR SOME, TUESDAY NIGHTS could they please contact Doug Stewart or Carol Maslin, Via the pigeon holes. Thank You.

# bikies ...

MOTOR-CYCLE CLUB.

Wagga Wagga to Tooma or RCAE to Twoma (or is it Tuma?) (This must be read in monotone.)

At last, enough interest has been shown in a Riverina College's bike run for it to become a reality. This is going to be big. After all, nearly 5 years of meticulous planning has gone into this.

No matter what size bike you ride you should come on this. It's only about 80 miles from Wagga, and no-ones going to be in a hurry. So far we have 125cc, 200cc

and 250cc motorcycles lined up for this event.

We have a choice of two weekends on which we can hold this event. We need to know who can go on either a) 17/10/81 or b) 24/10/81. We must know some time this week so we can arrange a date on which most people can go. So far we have had 30 people indicating their support of the idea so what we need now is action. Could you please see Matt Crosbie or Bruce Jackson regarding dates. (can often be found at the duck)

We are also going to have to know who can go for just a bar-b-Q lunch on the Saturday and those who are going to stay overnight (camping out) and come back on the Sunday.

Also desperately needed is someone to go who has a ute. A ute is very important for this trip as it can be used to. a) - pick up any bike that breaks down. b) - carry any camping gear c) - carry the keg.

We shall be making a couple of stops along the way to give the smaller capacity bikes a chance to catch up. First "rest" is at the Shanty, then on to Tarcutta, Tumbarumba and finally Tooma.

For those who don't know where Tooma is, it's about 20 miles past Tumba-bloody-Rumba. And what is at Tooma you may well ask? - a pub. If you want to find out what else is there, you'll have to go and find out.

We would also like a lot of pillion passengers as well.  
The Plastic Sprocket

P.S. Claridge isn't going so no need to worry about too many dickheads.

### PROPOSED SALES TAX ON BOOKS

The Federal Government intends to introduce sales tax of 2½% on books as of January 1, 1982.

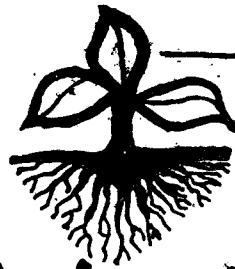

Many western countries, including England, Canada, New Zealand and the United States of America (at federal level) have exempted books from sales tax. They have argued that taxes should not be imposed on sources of information and knowledge.

In the event of this legislation being passed, local suppliers (for both Australian and overseas published titles) would pass on the sales tax to booksellers. For books indented directly, the bookseller would be responsible for paying the sales tax. Administration of the tax in both cases would be costly.

Under the proposed legislation the only exemptions allowed would be those organisations currently exempt from sales tax - government departments, hospitals, schools etc. Processing of these exemptions would also add significantly to administrative costs both at supplier and bookseller level.

Estimate of the price increase to the book buyer as a result of sales tax range from 7% to 15%.

Sign the petition against sales tax at the Union or co-op bookshop.

## Environotes

### Standard joke

*"It was a standard joke around the camp — how many boongs we picked up yesterday or the day before. These people were wandering around willy-nilly .... half-clad and with no shoes. And that ground was so 'hot' it will still be clicking 2,000 years from now ...."*

— Pat Connelly, RAF, talking about the Maralinga nuclear tests in the film *Backs to the Blast*.

### "H ot" fish

The HIFAR reactor at Lucas Heights near Sydney is one of the oldest operating in the world. Since 1958 the Atomic Energy Commission has dumped millions of gallons of radioactive waste in the Woronora River and released thousands of curies of radioactive gases. In 1971, the AEC stopped checking its emissions for the highly dangerous Strontium 90. They also stopped checking blackfish but they still test mullet. The blackfish were showing embarrassingly high levels of Cobalt 60. Sydney MAUM has a videotape available for sale or hire called *Goodbye HIFAR*. Phone MAUM on (02) 267.2459.

### Exporting the scenery ....

The Japanese Ambassador to Australia, Mr Mizuo Kuroda, told a Launceston civic reception that more and more Japanese were realising that Tasmania offered some of the best scenery in Australia. He went on to say that 34 percent of Tasmania's exports went to Japan, mainly in woodchips.

BHP's record profit of \$491 million — 22 percent up on last year, even with their shifty accounting methods.

In Britain, Mrs Thatcher has a \$A246 million plan to "help the growing number of young people who can't get jobs".

Very good. A cash payment of \$A25 a week for every school-leaver hired will be made .... to the **employers**.

Provided they do not pay wages of more than \$A65 a week.

A White House spokesman, Mr Larry Speakes, was quoted last week as saying:

"We do not condone or support the assassination of foreign leaders or the overthrow of foreign governments by the United States. As for the CIA, we don't discuss it."

National party officials in Queensland, led by former Senator Dr Glen Shiel, want a chair of "free enterprise" at a state university.

Without any apparent embarrassment, Dr Shiel proposed that half the costs of establishing and maintaining the chair should be carried by .... the government.
