Thankyou - At last Saturday's Folk Dance, a few people helped to make the event the rage it was. E² would like to thank those who helped us out.

The proposed Ball later on this semester has been cancelled. E² had booked the hall but was overruled by a decision made by Hoyts in Sydney. (That's what we were told). The Fyama Dance has been put on instead. There will be a Ball early next Semester.

SPORTSMANSHIPor is it?

RE: The refusal to be granted a football clearance. Why should a player be restricted to a club that is unable to offer that player what he wants out of sport?

Monetary payment is not the sole objective of players wishing to play with major league clubs. Footballers, playing with major league clubs do have an ambition to further themselves in football. It should also be noted at this point, that if I had accepted the position of Assistant Coach of R.C.A.R.F.C., I would have been assured of payment far greater than the match-payments Turvey Park were offering.

The major league clubs in the Wagga District have been accused of "pirating" the College Club - Bullshit! If a student goes voluntarily to any club of his choice, be it for whatever reason, he is merely expressing his right as an individual to do so - but then again, the R.C.A.R.F.C. wouldn't give a stuff about the individual's right.

The major clubs are simply doing what they are there to do i.e. offer sport and a standard of football which is compatible with that of the individual.

I would challenge any person who states that College students are approached first in this matter. I would know most of the students, who are now playing with either Turvey Park, Wagga, North Wagga and East Wagga Football Clubs, and each one of them have approached their respective club first.

Institutions such as our's pride themselves on the fact that they support the rights of individuals, and bitterly oppose oppression of such rights. It's a pity sporting bodies within such institutions can't do the same.

Finally, after playing two seasons with the College Football Club, I hope to Christ one day the people who have been responsible for the oppression of my rights may experience the anguish and disappointment that I have had to experience over the last 3 months.

Thanks, Riverina College Aussie Rules Football Club.
