WHAT SORT OF PERSON SMASHES UP FOOD MACHINES?

These machines are not put in to "rip off students" - they exist to extend the service provided - i.e. so that you can get hot food, ice creams, smokes etc., after hours when high wages make it impossible to keep the shops open. Respect these machines - you're only harming your own amenity if you don't. If you see someone wrecking them - why not stop them - someone needs to show a bit of maturity sometime.
