

Master Walter Campbell
Kinn College
Goulburn,

Red Hill;

Tumut. 5th Feb. 1915

My dear Walter - Thank you much for your various letters received from the 14 January. It was a blessing you had so much rain. I'm glad you fixed up your bicycle with Archie's help. Ask Mr. Kelso to let you come to dinner with me at the Commercial Hotel next Tuesday the 9th Inst. at 1 P.M. & tell me then what Alex owes for breaking your bike

I hope you found your French a little easier after reading so much with Kate. Its good the Windmill has been keeping the Tanks going & that the Motor has behaved itself.

Our water spring here is beautiful, but the Tank into which it is pumped, leaks, so there is trouble with it, & I will have to get a new one of 1000 gals.

I hope you are not getting it too hot at Goulburn. Our thermometer here goes nearly to 100 every day. I have been very busy with Eden every day, he sends his best wishes to Mr & Mrs Kelso & to you. The fruit has been good but the Birds are terrible. I wish you could have been here shooting them with a shot gun for practice. The grapes are just ripening, I must try & bring you some

Arthur has arrived in Sydney, & wired to know if she would send Clarence motor for me? I hope Charlie gave you 10/. I sent you for your Fare?

This awful War drags along, I only trust we may crush the Prussians to their Springtime in March & follow in months

Yr. aff. Father. F. Campbell
