Dear Mr. Blakemore, Hewitt
what I wd. like to have read
as my thanks to those who
proposed, ~~made~~ brought about
& erected the many Gilmore
gates under you at the Wagga
Wagga Teachers' College. Mrs.
Catts will say a few words, as
verbal thanks; but this is
myself. You may read it - for
me or choose as you like
someone else. As a friend & the
daughter of my old special school
mate, Lizzie McCauley, I mention
Mrs. Price, but not as a director

to you. It is for you to choose

One thing I ask is that
is that you get it typed &
send me a verbatim copy
for my collection at the Mitchell
Should you wish to keep the
original. If you do not please
return it. I enclose stamps for
it in this case. My thanks do
not grow less to you and those
of the College — nor does my
interest in duae & the town
lessen.

It may interest you to know that
I have had the warmest ^{personal} recognition
of writing I did on Trace Elements
to sent to China. Trace Elements
& China matter to the world today —

Every good wish — Mary Gilmore

I wonder by Rotary in Waage remembers
what I said at its luncheon the ^{one} on the
stability of the world depending on its ^{own} ^{idea} ^{of} ^{its} ^{own} ^{stability}
others say it now. I am first
