Dear Mr Walter

Many thanks for your letter of 19th + 20th Nov. I had a letter from Mr Gray about the meeting telling me of the 3/4 position + since then has sent the cheque along which I think was very good although had it not been for the extra tax I would sooner it go on adding to the Company wealth however it is useful to me + I feel very much indebted to you for selling me the shares and at any time should you require your money dont forget to ask me, as I can always get it on my war loan scrip with a little notice. I think the Ford truck + firefly attachment will be very useful + a great improvement on the horses. Doubtless Fortescue's outfit may have been the best but the other will do alright.

We had good luck with our summer tanks

COGNIBL
JOORARAS

got an average of 74% giving us 2600 lambs
 which are doing & looking well this will
 help to keep our numbers up & more to
 sell & 17000 ewes to lamb March April
 at present the feed is pretty good & will
 last until April after that we will
 begin perhaps to feel the pinch. Chances are
 we will have useful rain before then
 we only had 10 points the last rain
 Carrage had 147. we did better without
 it owing to the thistles I am having
 great going at them getting them pretty
 out for this year hope to worry them out
 in time. I'm hark the mailman is
 on to me. So must ring off. With
 kind regards to all of whom I hope
 are well.

Yours Sincerely
 J. Reid
