Dear Sir

Yours to hand I was pleased to hear that you arrived safely you were very wise in changing the truck for a box I have seen so many horses broke up in transit Now just a word on the war as much as I would like go and do my bit at the front I would be sorrey to enlist you your father has a lot on his hands and may require you at any moment to his Interest on the station again you are doing good work by producing produce for the front some day ~~you may~~ you may have to take full charge if you go to the front you may not come back then the enemy would win one point by putting your interest in their subjects hands but what ever your father advises will be correct Now Dear Friend if ever you are in Sydney I would be pleased to see you you are quite welcome to make my place your home when in Sydney I am still doing good work recruiting hoping you are in good health

with kindest regards

I am yours truly
