

Dear Captain Lower,

I am just writing this to tell you that I have met Mr. Currie who shared the room with you & Charlie in France.

He has told me that the observers said they saw Charlie's machine go down in flames from a height of about seventeen thousand feet. I think that out of kindness to us you did not mention this, but now that he has done so I should like to hear from you if you heard the same thing. If the petrol tank was fired at that height he says there could be absolutely no hope of Charlie or his observer surviving.

~~We hope to go to Cambrai~~
