Mr. M. Campbell. Esq.

Dear Sir

I wish to advise you that I have paid a cheque to your credit with the Bank of Australasia Head Office, to the value of £427-10-3. The interest for the half year being £59-1-3. & the balance £368-15-0 being the amount I decided to pay off on the property. This will leave the sum of £1600-0-0 still owing. I would have been very glad to paid off more but the way things are at present one has to be cautious as money is very hard to get.

Everything is in a bad state at present isn't it? The wool market did not open too bright after the holidays & the wheat market seems worse than the wool. I don't know how many of the folk on the land will pull through. However we can only hope for better times, which

I hope will not be long.

There is one thing that is very much in our favour & that is the wonderful season we are having. There is grass in abundance & most of the wheat crops were fair though the rust affected some very bad.

I tried to sell fat wethers in town today & 6/- was the best offer I could get for them so I think I will hold them for awhile yet.

I hope you are quite well.

With every good wish for the coming year.

Yours Sincerely
C. E. Southwell
