Eose Bay

28th July 1919

My dear Bennison,

I was quite disappointed that there was no letter from you on Saturday, but I know you are busy now with the shearing & I felt a little anxious about those floods in Riverina. The paper said the rivers were so high & the Creeks & perhaps the mail could not get through.

Now we had very nice weather but

No rain. Cold westerly winds enough to
blow the place to pieces.

I do wish we could hear from Charlie
Pop wrote a few lines to the Hughes
but did not mention Charlie.

Cousin Ethel Campbell received a
Cable from George, he had arrived
all safe in England. but two
of his friends were left behind
in Africa, they were told to
find the others & bring them back
& the others returned. boat left

without these two. & all their baggage
on board, there seems to be frightful
carelessness, with some one in
Authority.

I have no news to tell you, Jack is
still a little better even the Doctor
says that now. though I was up
most of last night with him.
Still his voice is coming back.

So Grace must be well on his way now
his mother feels his drink than told.
There was a big rally of men offering
themselves two days ago.

Western Australia wants Conscription
Independently of the Other States.

When they Conscript health as well as
men, some people will feel it &
think Father will have to fix up
something for one or each, in case
they pass it here I think, It would
be best for him to give you all something
& then ~~if~~ you could be sure of something
but I expect it's fair, but I hope that
those who caused the war will have
to pay up. Russia seems uncertain.

With
our affectionate mother & father
our affectionate mother
Muste Campbell
