15th May, 1927.

My dear Walter

Thank you much for writing me you drove your mother to
Canberra for the royal display. Where I suppose you camped, as there
appears to have been 10000 cars. The day train seems to have
started ~~the~~^{grass} seed, & you are far ahead of us for we have not had
one sack yet. I'm pleased to know of Newcastle (coal) bought
your adjoining land for milking & cattle raising, as he will bring
the price per acre, & I've learnt today that it is the expected
one from Jerildare to Wilton that has raised the price
of possible ~~price~~ to £5 per acre. The figure of £8 per acre
for Leeton, will not be too high, for the same reason.

I'm thankful to say my asthma is much improved, tho' I'm
still taking my nasty cough mixture. We still have fires
that burn all day, & the nights are cold. Write to Mackenzie
to apply to Field for your £1000 interest due on the 1st of June
on your purchase. With love, your aff. father

J. Cameron
